use the latest and greatest methods around to eliminate spam for our customers accounts by subscribing to a worldwide database. Each incoming email is scanned and an attempt is made to match it to any known spam messages. If a match is made the message is still delivered to the intended recipient, however the subject line is appended with the word "SPAM" as to make it easily identified and filtered by you. This prevents any mislabeled emails from not reaching you and guarantees that you will receive all of your mail. All incoming email is also scanned for any known virus files. If a virus file is found to be present it is "cleaned" or removed and the delivery is made. At the same time the sender of the virus is warned that they have a virus and should immediately do a system scan. Realtx uses the best methods available to prevent users from getting spam or virus emails. However, it is impossible to filter out 100% of these annoying emails. Currently we are filtering out approximately 95 percent of all spam and to date no user has received a virus though Realtx email. Prices are \$10/month for web hosting including 10 pop3 email accounts, or \$5/month for up to 10 pop3 email address.

Prepay for 1 year for only \$99

---

*02-02-03 Due to ip.net declaring bankruptcy Realtx was forced to find another isp. As of today Realtx is using 2 providers simultaneously. Over the next week all traffic will automagically role over to the new provider's network (SBC).*

---

*10-16-02 Server performance increase of 200%.*

---

*9-25-02 Apache web server updated.*

---

*9-19-02 Email spam and virus filter updated. Now using razor for spam detection.*
